

# COMPREHENSIVE ADVANCED PALLIATIVE CARE EDUCATION (CAPCE)

**TUESDAY NOVEMBER 7, 2023 - MARCH 26, 2024**  
**5PM - 9PM**

The Comprehensive Advanced Palliative Care Education (CAPCE) Program combines the “art” and “science” of Hospice Palliative Care (HPC) for nurses (RN, RPN, & NP). The program embeds best practice standards and aligns with the Model to Guide Hospice Palliative Care. CAPCE focuses on the development and role of the nurse as a HPC resource for the interdisciplinary team in long-term care homes, agencies, hospitals and communities.

The components of the program include: self-directed reading and reflection, e-learning modules, in-person sessions (case based learning), peer to peer exchanges (learning debrief), practical application assignments and individual or small group coaching sessions.

CAPCE Selection Criteria: a minimum of 1 year hospice palliative care nursing experience, have access to an internet-enabled computer, have knowledge of basic computer programs, and have completed the Fundamentals Core and Enhanced Hospice Palliative Care Programs.

- All sessions are provided virtually using ZOOM

## Important Dates
